## OFFICE ACTION

### *Election/Restriction*

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-8 and 14-20, drawn to a centrifuge rotor.

Group II, claim(s) 9-13, drawn to a centrifuge rotor.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons (note page 3 of the ISR – Form 210 dated 15 FEB 2005):

- Group I is directed to a centrifugal separation rotor comprising a separation vessel, an inlet, an outlet passage, a mounting arrangement , a fluid motor impeller, and at least one collection impeller vane in the inlet.
- Group II is directed to a centrifugal separation rotor comprising a separation vessel, an inlet, an outlet passage, a fluid motor impeller, and a guide for the discharged liquid.

Art Unit: 1797

3. Group I thus has at least one special technical feature not shared by Group II such as the guide for discharged liquid. Group II has at least one special technical feature not shared by Group I such as the collection impeller vane in the inlet.

4. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
